DETAILED ACTION

Response to Amendment

The rejections described in the Office Action mailed on March 18, 2005 have been withdrawn in view of the amendment filed on September 19, 2005. The applied prior art does not disclose a process as claimed in which the catalyst is subjected to a presulfiding or sulfiding step.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 31 and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. These claims are omnibus type claims.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 1764

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 27-32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-35 of U.S. Patent No. 6,663,768).

Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims are drawn to a process for producing a lubricating oil base stock in which a waxy feed having the same characteristics is contacted over the same molecular sieve catalyst to produce an isomerized oil having a pour point of at least 6°C above a target pour point. This isomerized oil is then solvent dewaxed to produce a lubricating oil base stock having the same viscosity index and pour point. The patented claims do not include a presulfiding step. However, as defined in the patent, the metal in the catalyst is defined as a metal in the elemental state or in some other form such as a sulfide. The presence of a metal sulfide in the catalyst, which is clearly within the scope of the claim, would necessarily suggest a step for producing the metal sulfide. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the patented claims by including a presulfiding step because such a step would result in the production of metal sulfides, which may be present in the catalyst of the patented claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1764

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
